Polynucleotides can be used for the following:

- Acne
- Atrophic Scarring
- Alopecia / Hair Loss
- Hyperpigmentation
- Stretch Marks
- Lines and Wrinkles
- Rehydration of the Skin

A series of *two to four* treatments and a maintenance does every *six months* will be required.

Profhilo

£250

A revolutionary 'beneath-the-skin' hyaluronic acid hydrating treatment. Used for skin laxity and dullness and has bio-remodelling properties.

Pay only £450 when you book your first two treatments together!

Seventy Hyal 2000

£150

Next-generation skin booster that hydrates and stimulates collagen production. It improves the skin from the inside out.

Two to three treatments, *four weeks* apart and a maintenance treatment every *six to twelve months* is required.
